- 5) ☐ Notice of Informal Patent Application (PTO-152)
- 6) ☐ Other: _____

The disclosure is objected to because of the following informalities: page 7, line 17, "other" should be changed to --an opposite--. Also, page 1 of the specification should be amended to include the continuation data. Appropriate correction is required.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claims 1-4 are rejected under 35 U.S.C. 102(e) as being anticipated by Masui et al (US Patent 5053179).

The applied reference has a common inventor with the instant application. Based upon the earlier effective U.S. filing date of the reference, it constitutes prior art under 35 U.S.C. 102(e). This rejection under 35 U.S.C. 102(e) might be overcome either by a showing under 37 CFR 1.132 that any invention disclosed but not claimed in

Art Unit: 1722

the reference was derived from the inventor of this application and is thus not the invention "by another," or by an appropriate showing under 37 CFR 1.131.

Masai et al. disclose an lower mold 9 having pins 16 and 17, the pins being retained in a groove on a protrusion on the lower mold and an upper mold 7 having a kick 11 for forming a groove on the formed product.

Claims 1-4 are rejected under 35 U.S.C. 102(a) as being anticipated by Masai et al. (WO 88/08364).

Masai et al. disclose an lower mold 9 having pins 16 and 17, the pins being retained in a groove on a protrusion on the lower mold and an upper mold 7 having a kick 11 for forming a groove on the formed product.
